How to in Details

1. How to install the script?

Answer: To install Paytm Payment Method you need to follow the below steps :

- **Active eCommerce cms** should be **pre-installed** on your server.
- **Purchase and Download the Paytm Payment Method Addon file.**
- **Login** into your admin panel of the system
- Go to **Addon Manager**
- Click on **Install New Addon**
- Choose the **downloaded zipped file** and click on **Install**.
- After Installation, you will find the **Paytm Payment Gateway** in your left sidebar of the admin panel.
- Now you need to **configure the Paytm payment method** Addon.

2. What features are included in the Paytm Payment Method Addon?

Answer::

- Easy paytm payment method configuration
- Paytm Payment method during checkout
- Paytm payment method during wallet recharge

3. How to configure Paytm Payment Method addon?

Answer:

The screenshot shows the Paytm Business dashboard with the sidebar menu expanded. The 'API Keys' option under the 'DEVELOPERS' section is highlighted with a blue bar. The main content area displays the 'API Keys' page, which includes sections for 'Test API Details' and 'Production API Details'. The 'Production API Details' tab is active. The page lists various API parameters with their values:

Category	Parameter	Value
Merchant ID	Test API Details	[REDACTED]
	Production API Details	[REDACTED]
Merchant Key	Test API Details	[REDACTED]
	Production API Details	[REDACTED]
Website	Test API Details	DEFAULT
	Production API Details	Retail
Industry Type	Test API Details	WEB
	Production API Details	WAP
Channel ID (For Website)	Test API Details	[REDACTED]
	Production API Details	[REDACTED]
Channel ID (For Mobile Apps)	Test API Details	[REDACTED]
	Production API Details	[REDACTED]
Transaction URL	Test API Details	[REDACTED]
	Production API Details	https://securegw.paytm.in/order/process
Transaction Status URL	Test API Details	[REDACTED]
	Production API Details	https://securegw.paytm.in/order/status

At the bottom of the page, there is a 'Developer Integration Guide' button.

- Go to <https://dashboard.paytm.com/>
- Go to settings from PAytm dashboard.

- Configure your payment receiving methods.
- Go to **API Keys** under DEVELOPERS section.
- Configure Paytm credentials on admin panel according to **Production API Details**

The screenshot shows the Active Ecommerce admin panel interface. On the left is a dark sidebar with various menu items: Dashboard, Products, Flash Deal, Inhouse orders (with 18 notifications), Pick-up Point Order, Total sales, Sellers, Customers, Conversations, Reports, Messaging, Business Settings, Frontend Settings, E-commerce Setup, and Affiliate Program. The main area is titled "Paytm Credential". It contains five input fields with the following values:

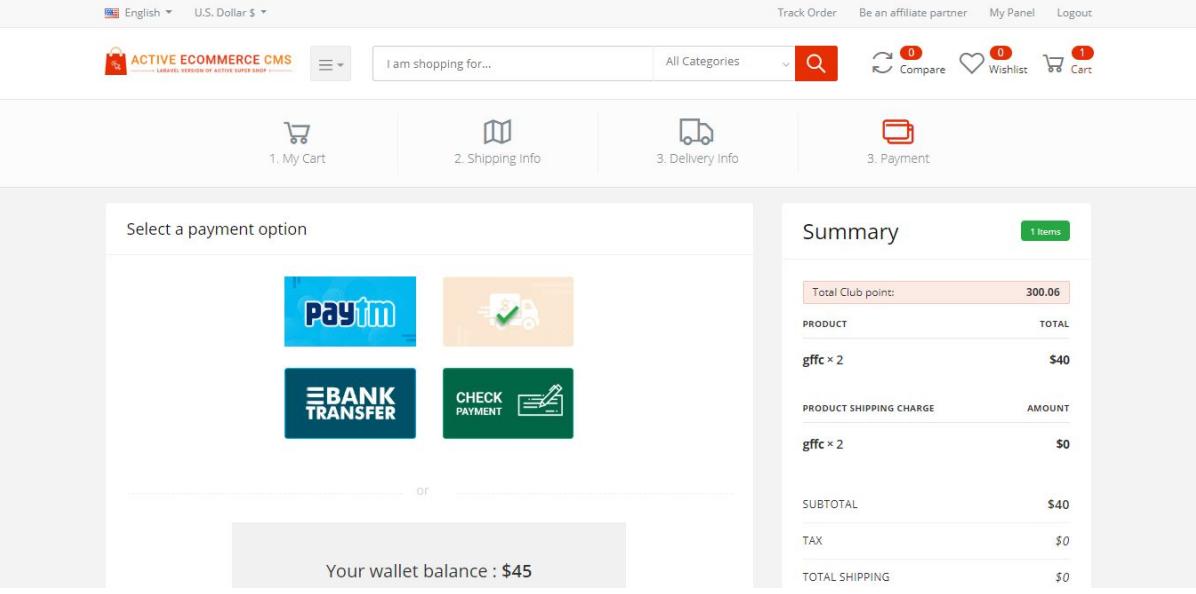

- PAYTM ENVIRONMENT: production
- PAYTM MERCHANT ID: jjHUFd68523552782242
- PAYTM MERCHANT KEY: Pb4IKDq7i9VpE_u2
- PAYTM MERCHANT WEBSITE: DEFAULT
- PAYTM CHANNEL: WEB
- PAYTM INDUSTRY TYPE: Retail

A purple "Save" button is located at the bottom right of the form. The top right corner of the main window shows language settings (English) and user icons (bell and profile).

4. How can a customer pay with paytm payment method?

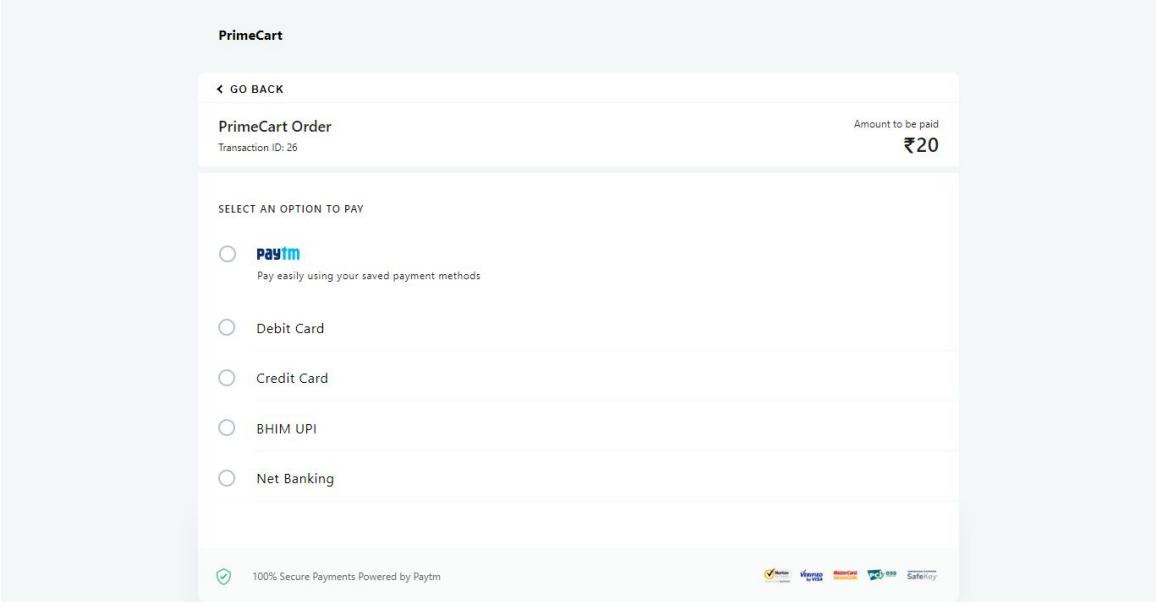

Answer:

- If paytm payment method addon is activated customers will get pay with paytm option during checkout.

The screenshot shows a user interface for an e-commerce platform. At the top, there are language and currency settings (English, U.S. Dollar \$), navigation links (Track Order, Be an affiliate partner, My Panel, Logout), and a search bar. Below the header, there are four main steps: 1. My Cart, 2. Shipping Info, 3. Delivery Info, and 3. Payment. The '3. Payment' step is currently active. On the left, under 'Select a payment option', there are four choices: Paytm (highlighted in blue), Bank Transfer, Check Payment, and another Paytm option. A note below says 'Your wallet balance : \$45'. On the right, the 'Summary' section details the purchase: Total Club point: 300.06, PRODUCT gffc x 2 (\$40), PRODUCT SHIPPING CHARGE (\$0), SUBTOTAL (\$40), TAX (\$0), and TOTAL SHIPPING (\$0).

- Then after selecting paytm & clicking complete order button customer will be redirected to paytm

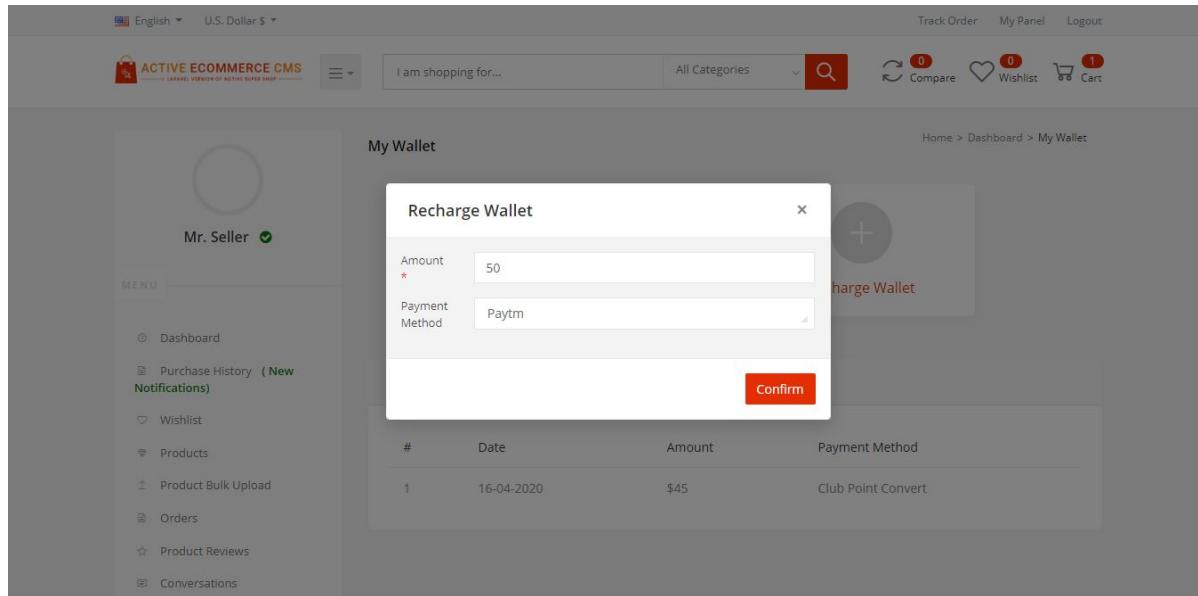

The screenshot shows a 'PrimeCart' payment selection screen. At the top, it displays 'PrimeCart Order' and 'Transaction ID: 26'. To the right, it shows 'Amount to be paid ₹20'. Below this, a section titled 'SELECT AN OPTION TO PAY' lists five payment methods: Paytm, Debit Card, Credit Card, BHIM UPI, and Net Banking. The 'Paytm' option is selected and highlighted in blue. At the bottom, there is a note '100% Secure Payments Powered by Paytm' and several payment gateway logos (MasterCard, Visa, etc.).

- After successful payment that order will be placed. If a customer cancels, no order will be placed.

5. How can a customer recharge his/her wallet with paytm payment method?

Ans:

- Customers will get paytm option during wallet recharge.

- Then after selecting paytm & clicking continue button customer will be redirected to paytm
- After successful payment, the wallet will be recharged.
